Training info:

Being an effective health volunteer -

This session will look at why patient champions are essential in the development of local health services. We will outline the roles of the patient champion and explore how they can influence service change.

Knowing your community -

This session will look at the importance of equality and diversity in health and social care. We will look at national and local guidance which drives this work and analyse best practice. We will also look at how patient champions can support the CCG to engage with seldom heard groups.

Patient Participation Groups (PPGs) -

This session will explore the role of patient participation groups. Participants will look at the changing role of GP practices and examine the challenges they face and the opportunities they present. They will explore how members can work with staff to develop services and examine good practice from other areas of the country.

Co-production -

This session will define co-production and explore its potential in health and social care commissioning.

We will look at examples in practice and explore in detail the elements of co-design, co-decision making, co-delivery and co-evaluation.

Delivering Hospital Services and Making them Work -

This session will outline the management structure and the quality governance framework within Leeds Teaching Hospitals enabling participants to better understand the way in which services are organised.

Listening to our patients -

This session will outline the ways in which LTHT receives feedback from patients and will provide examples of feedback have received and actions LTHT has taken in response to that feedback.

Valuing People in Quality Improvement -

This session provides an introduction to Quality Improvement looking at the principles, examples and how to get involved.

Mental Capacity Act and Me -

This session will help you understand how the Mental Capacity Act might affect you and your loved ones and how this legislation is supported by services and commissioners.

Unconscious Bias -

Unconscious bias refers to the stereotypes and perceptions we all hold about each other. This session will look at our own conscious stereotypes and understand how they might impact us.

Mental Health Anti-Stigma -

This session will explore mental health, what stigma is, how to identify it and the impact of stigma and discrimination.

Peer support group -

The peer support group exists to ensure that people representing patients, carers and the public on NHS CCG Partnership steering groups are clear about their role and confident to champion the patient voice. It is open to anyone who wants to network, share good practice and provide support to fellow peers.

Patient Participation Group Network Meeting -

The PPG Network meeting is a bi-monthly meeting that is open to PPG members and people interested in PPGs. The group offers a network of support as well as working on projects to help improve and develop PPGs across the city.

Engagement Event:

Wednesday 12th September 2018, 10am - 1pm,

Location TBC

Patient Participation Group Event:

October 2018,

Times and location TBC
